

Analytics Navigator

Discover a Deeper Path to Your Data Destination

Benefits leaders look to their data as their compass - helping point them in the right direction and easily navigate the path to the answers they need.

But when you want to dive deeper into your data, you may find that you don't have the skillset to build complex queries or the understanding of which areas to explore.

You have Springbuk's curated data insights. Now, you can have more perspective and context of the stories your data hold.

That's why we built [Springbuk Analytics Navigator](#).

Do any of these sound familiar?

- › Some of your questions require **in-depth, challenging, and time-consuming analysis**
- › You don't always know **exactly what you are looking for**
- › What you want to visualize **requires tools you don't have access to**

Analytics Navigator is a suite of dynamic and interactive analytic tools that help **take your data exploration to the next level** so you can slice and dice the data as you want – with just a few quick clicks.

It arms you with deeper insights on recommended actions, including predefined, easily drillable data details and analysis around particular action items such as condition management, drug management, and financial risk, so you can:

- › Easily identify trends that are important to you
- › Dig deeper into your areas of interest
- › Answer your specific questions about the health of your population

Let's explore how you can **gain a direct route to the information you need quickly**, decisively, and with an informed perspective with **Analytics Navigator**.

Analysis Made Easy: Access Multi-Level Insights in Minutes

We understand that **you want to spend your time analyzing and taking action**, not writing queries to sift through. You want data to be surfaced and explorable in real time. **Analytics Navigator takes care of the complex tasks of utilizing warehouse data and creating visualizations**, eliminating the need for advanced technical skills to get in-depth insights.

Analytics Navigator helps both the **harried business user** who is looking for a way to bring their data together in one place, and the **curious data analyst** who likes to dig into the data and take their analysis to the next level:

- › Explore multiple levels of analysis through interactive and dynamic drill path capabilities, all from point-and-click functionality
- › Access intuitive platform-based guidance for analyzing drivers of spend, trend, and utilization; easily click and dive into the details of the sub-drivers that interest you
- › Drill deeper and explore the path of trend drivers to develop strategies that minimize costs and/or enhance health outcomes
- › Effortlessly find answers and download views directly to a presentation format, complete with visualizations

Access More Metrics, Data Points, and Visualizations to Answer More Questions Faster

When you have access to more information and easy-to-use tools that allow you to drill deeper into your data, **you're empowered to make decisions that solve today's problems and prepare for tomorrow's challenges.**

Let us show you how Springbuk can deliver the intelligence you need to make the best decisions for your business and your people.
